Web Announcement 1477

Online Provider Enrollment Portal Attachments Page Corrected to Accept Attachments Up to 15 MB

On December 4, 2017, the Online Provider Enrollment Portal attachments page was corrected to allow providers to upload attachments up to the allowable 15 MB size limit. Previously when providers tried to upload attachments that were more than 8 MBs, an error message would display and the enrollment application could not be submitted through the Portal. The issue has been resolved and attachments up to the allowable 15 MB size limit will be accepted.
